PROFESSIONAL SUMMARY

DevOps Engineer with 3+ years of experience in designing, automating, and maintaining secure, scalable cloud infrastructure. Strong expertise in AWS, Azure, GCP, Kubernetes, CI/CD pipelines, and Infrastructure as Code (Terraform, Ansible). Proven ability to analyze operational data, troubleshoot complex production issues, and improve system reliability, performance, and security in agile environments.

CORE SKILLS

Cloud Platforms: AWS, Azure, Google Cloud Platform

DevOps & CI/CD: Jenkins, Azure DevOps, SonarQube

Infrastructure as Code: Terraform, Ansible

Containers & Orchestration: Docker (ECR, ACR), Kubernetes (EKS, AKS)

Scripting & Automation: Python, Bash

Monitoring & Observability: Prometheus, Grafana, CloudWatch, Azure Monitor

Version Control: Git, Azure Repos

Databases & Security: PostgreSQL, ArangoDB, Azure Key Vault

PROFESSIONAL EXPERIENCE

Astreya - Pune, Maharashtra

DevOps Engineer / Consultant / August 2025 – Present

- Execute cloud infrastructure automation and technical troubleshooting for production environments.
- Design and maintain secure, high-quality DevOps pipelines for containerized applications.
- Analyze operational metrics and logs to drive continuous improvements in reliability and performance.
- Identify patterns in system behavior to enhance automation, security, and cloud architecture.

LТИ Mindtree - Pune, Maharashtra

DevOps Engineer / July 2022 –August 2025

- Designed and implemented cloud infrastructure solutions on AWS and Azure, ensuring scalability, security, and high availability.
- Built and optimized CI/CD pipelines using Jenkins and Azure DevOps, reducing deployment time by ~30%.
- Automated infrastructure provisioning using Terraform and Ansible for consistent and compliant deployments.
- Deployed AWS services including VPC, ALB, EKS, IAM, and security groups.

- Integrated SonarQube and CAST Imaging into pipelines to improve code quality.
- Monitored production systems using Prometheus, Grafana, and CloudWatch.
- Automated operational tasks using Python and Bash, reducing manual effort by ~25%.
- Managed Dockerized microservices on Kubernetes with scaling and reliability best practices.

CERTIFICATIONS

- AWS Certified Developer – Associate
- Google Cloud Professional DevOps Engineer
- AWS Cloud Practitioner
- Microsoft AZ-900 (Azure Fundamentals)

EDUCATION

Bachelor of Engineering (Electrical Engineering)
Savitribai Phule Pune University | 2019 – 2022
